Customer Support Sample

Virtual Assistant Portfolio | Practice project with fictional scenarios

Project overview

This practice project demonstrates how a virtual assistant can respond to common customer questions in a clear, polite, and helpful way. All names and order details below are fictional.

Sample customer inquiry 1

Customer: Hi, I placed an order last week. Can you tell me when it will arrive?

Suggested response: Hello! Thank you for reaching out. I'd be happy to help check your order status. Could you please provide your order number? Once I have it, I can review the available tracking information.

Sample customer inquiry 2

Customer: I received the wrong item. What should I do?

Suggested response: I'm sorry for the inconvenience. Please send us your order number and a brief description of the item you received. I'll pass the details to the appropriate team so they can review the issue and advise you on the next steps.

Sample customer inquiry 3

Customer: What time are you open?

Suggested response: Thanks for asking! Our sample business hours are Monday to Saturday, 9:00 AM to 6:00 PM. Please note that these are demonstration details and should be replaced with the business's actual hours.

Approach demonstrated

Acknowledge the concern, use a courteous tone, ask only for the information needed, avoid promising an outcome you cannot confirm, and follow the business's approved policies.
