Email Management Sample

Virtual Assistant Portfolio | Fictional inbox workflow

Project overview

This sample shows a simple method for sorting incoming messages and drafting professional replies. The sender names and messages are fictional.

Inbox organization example

Category	Example message	Suggested action
Appointment	Can I book a consultation next Tuesday?	Add request to appointment tracker; confirm availability with the busines
General inquiry	Do you offer weekend services?	Reply using the business's approved service information.
Follow-up	I'm checking on my previous message.	Review the conversation and send a polite status update.
Needs escalation	I want to make a formal complaint.	Forward to the manager or designated staff member promptly.

Sample email reply

Subject: Re: Request for an appointment

Hello [Customer Name],

Thank you for contacting us. I'd be glad to help with your appointment request. Could you please share your preferred date and time? I'll check the schedule and get back to you with the available options.

Best regards,
Customer Support Team

Workflow

1. Review the sender and subject. 2. Categorize the message. 3. Draft a reply using approved information. 4. Escalate sensitive or unclear issues. 5. Mark the message for follow-up when needed.
